# Product sheet

Brand: SIMON

Reference: SIMON KL01/7

Schuko socket base 16A 250V with safety device, luminous indicator and screw terminal, orange Simon K45. This Schuko socket base belongs to the Simon K45 series. It is a two-module individual model in orange finish, featuring a safety device and a luminous indicator. It supports electrical appliances up to 16 Amperes and 250 volts, making it ideal for any room. This modern socket base is made with high-quality, halogen-free materials. In addition, its metal components with self-extinguishing thermoplastic insulation ensure home safety, as they are specifically designed to prevent flame spread in case of fire and to considerably reduce the toxicity of potential smoke. Maintenance is very simple and does not require any specific product; simply wiping it with a dry cloth will keep it in perfect condition. The Schuko Simon K45 is easily installed with screws and has dimensions of 45x45 millimeters and a depth of 39 millimeters. This model is a safe bet for quality and safety.
