Product sheet

Brand: SIMON

Reference: SIMON KL01/6

Schuko socket base 16A 250V with safety device, luminous indicator and red screw terminal Simon K45. Thanks to the Simon K45 series, connectivity at the various workstations is ensured, as is the maximum protection and safety of all employees. Among the different socket bases, we can find this Schuko socket base (16 Amperes and 250 Volts) with built-in safety device, luminous indicator and screw terminal type. Red finish, which will give a different touch to your electrical installation. This base is made of metallic materials with self-extinguishing thermoplastic insulation and free of halogens, which guarantees, in this way, the non-propagation of flame in case of fire and low toxicity in case of smoke emission. A life insurance, never better said. Its dimensions are 45x45mm and its depth is 39 millimeters. The cable cross-section it accepts is from 1.5 to 2.5 millimeters. The cable stripping, on the other hand, is 12 millimeters.
