Product sheet

Brand: SIMON

Reference: SIMON K11/7

Schuko socket base 16A 250V with safety device and quick connection, orange Simon K45. This is a Schuko socket base 16A 250V featuring a safety device and quick connection. It is part of the Simon K45 series, a collection focused on connectivity in any space. Thanks to its connection system, the piece can be installed in just a few minutes. It also allows direct linking of socket bases without the need to strip or twist the cables, using reference AC11. The socket has an orange finish and dimensions of 45x45mm. Manufactured in strict compliance with regulations, it contains metal components with insulation in self-extinguishing thermoplastic free of halogens. These special characteristics guarantee that flames do not spread in case of fire, as well as low toxicity. The piece is suitable for surface and flush mounting and has easy maintenance. Use a soft, dry chamois to clean it, avoiding abrasive products.
