Product sheet

Brand: SIMON

Reference: SIMON K11/6

Schuko socket base 16A 250V with safety device and quick connection, red Simon K45. This Simon K45 socket base, available in red, is made of plastic and features a Schuko format. Its connection type is screw-terminal, with a current rating of 16A and a voltage of 250 V. Additionally, it comprises two modules and allows you to directly link socket bases without the need to strip or twist the cables, thanks to reference AC11. The red Simon K45 also features a 45-degree tilt to provide high connection density and includes a protective shutter that prevents contact with the live parts of the socket. The Simon K45 range, in addition to socket bases, includes floor boxes, teleblock, wall boxes, watertight floor boxes IP&&, minicolumns, columns, and ofiblock (Plus, Compact, and Line), so you can use them in the various electrical installations in your home.
