

Product sheet

Brand: SIMON

Reference: SIMON K11/8

Schuko socket base 16A 250V with safety device and quick connection, aluminum, Simon K45. The Simon K45 socket base in aluminum color features quick connection and Schuko format. Like all bases in the range, it includes a safety shutter and two modules. It operates via insertion and has a voltage of 250 V and a current rating of 16A. Additionally, it allows you to directly link socket bases without twisting or gluing cables, using only reference AC11. With Simon K45, a convergence of data, protection, energy, and multimedia solutions is achieved in any type of installation, whether on ceiling, furniture, or wall. All Simon K45 designs are carefully crafted to perfectly match the decoration of your home and any room where you wish to install them.
