Brand: SIMON

Reference: SIMON KLS02/9

French socket base 16A 250V with safety shutter, luminous indicator, white screw terminals Simon K45. The most innovative design and maximum safety are present in the French socket base with safety shutter, luminous indicator, and screw terminals in white from the Simon K45 series. Suitable for surface and flush mounting, it is one of the most in-demand elements for installation in both private homes and public or private buildings. Among its main features are: dimensions of 45x45x39mm, current rating of 16A, voltage of 250V, cable cross-section from 1.5 to 2.5mm, and a cable stripping length of 12mm. This product has been manufactured with metallic components featuring self-extinguishing thermoplastic insulation and free of halogens, which guarantee non-flame propagation in case of fire and low toxicity in case of smoke emission. In addition, this socket base offers the possibility of requesting a replacement pin, in case of breakage or loss, through reference AC33/6.
