Product sheet

Brand: SIMON

Reference: SIMON KS22/14

French socket base 16A 250V with safety shutter and quick termination, grafito Simon K45. For over a hundred years, the objective of all products and accessories designed by Simon has been to properly protect electrical and electronic systems in order to extend their useful life. This quality is present in the French socket base with safety shutter and quick termination in grafito finish from the Simon K45 series. With dimensions of 100x50x9mm, this element accepts a cable cross-section of 1.5 to 2.5mm and requires a cable stripping length of 12mm. Suitable for surface or flush mounting, this cover with a current rating of 16A and voltage of 250V stands out for its resistance, as it has been designed with halogen-free thermoplastic, materials that guarantee non-flame propagation in case of fire and low toxicity in case of smoke emission. Innovative design and maximum safety at the most competitive price on the market.
