Brand: SIMON

Reference: SIMON K22/6

French socket base 16A 250V with safety device and quick connection red Simon K45. French socket base 16A 250V, with red safety device from the Simon K45 collection. Bipolar socket model with earth contact and finishes in a soft red color from the Simon K45 range, featuring a safety device composed of metallic materials insulated with halogen-free thermoplastic, protecting your premises against possible fire. The Simon K45 series, compatible with elements rated at 16 Amperes and 250 Volts, streamlines the installation process by including a quick connection system that eliminates the need to strip or twist wiring, allowing for easy connection of socket bases, with the option to install either surface-mounted or flush-mounted, depending on the needs of each room. Innovation, elegant finishes, and guarantees of safety and efficiency come together in the Simon K45 collection to provide your home with the best quality, protection, and functionality.
