# Product sheet

Brand: SIMON

Reference: SIMON KL02/9

French socket base 16A 250V with safety device, luminous indicator and screw terminal, white Simon K45. French-style socket base from the Simon K45 range, made in white. Its terminal type is screw and it also features a safety device. Its current rating is 16A and its voltage is 250 V, and it also has 2 modules. As for dimensions, they are 45x45x39mm and it allows a cable cross-section of 1.5 to 2.5mm and a cable stripping length of 12mm. Manufactured with halogen-free metal components and self-extinguishing thermoplastic insulation, this Simon K45 socket base guarantees non-propagation of flames in case of fire and low toxicity if smoke emission were to occur. It has been designed in compliance with the standards UNE 20315-1-1:2009 + 20315-1-2:2009 + NF C-61314:2008 + A1:2010 and is a socket base suitable for both flush and surface mounting.
