Product sheet

Brand: SIMON

Reference: SIMON 82578-31

Tilted voice and data faceplate with dust cover for 1 RJ45 connector, marfil, Simon 82. Made of thermoplastic material and in marfil color, we present this tilted voice and data faceplate for 1 RJ45 connector with dust cover. No engraving included. For correct installation, the use of a universal flush-mounted box or, alternatively, a surface-mounted backbox is required. For proper cleaning, avoid aggressive products containing chlorine or similar substances that may damage this component. Give it a gentle wipe with a clean cloth slightly dampened with soapy water. Technical information regarding maximum and minimum temperatures: The operating temperature range is 5 to 40º C and the storage range is -25 to 50º C. It measures 55mm high x 55mm wide. The adapter module for the RJ45 connector is not included. Finally, it is recommended to choose a frame with a backbox of the same color as the selected faceplate.
