Brand: SIMON

Reference: SIMON 82088-38

Simon 82 graphite adapter plate. The elements and mechanisms that make up the Simon 82 series allow you to change the electrical installations in homes and businesses with a single gesture. A click is enough for a room to change its style in the most comfortable way. For this, we have products such as the Simon 82 series graphite adapter plate. This is a piece with magnificent performance in all types of environments, which makes it one of the most in-demand plates for use in the electrical installations of large buildings such as commercial establishments or office headquarters. Suitable for both surface and flush mounting, its installation can be carried out in a few minutes without the need for prior knowledge. It can be chosen from the six finishes available in our catalog, and it also stands out for the quality of its structure, which has been manufactured with thermoplastic components, and its price, which is the most competitive.
