Product sheet

Brand: SIMON

Reference: SIMON 44502220-138

Complete in-table kit with cover, brush, 2 Schuko socket bases and 2 SAI-type bases, and a voice and data plate for two RJ45 connectors. Part of Simon's 400 series, it features an elegant finish in black. Thanks to this complete in-table kit, we can embed our connections in any type of space. Simon offers an elegant and cutting-edge way to have multiple elements while avoiding the use of long cables on the floor, as the kit is pre-wired. The Simon 400 series is already a benchmark in homes and the most demanding workspaces. This piece is made of metal and is suitable for voltages of 250 volts and intensities of 16 amperes. A highly durable product thanks to its painted steel enclosure and anodized aluminum profile. Simon offers fire safety across the entire range, achieved through the use of self-extinguishing, halogen-free thermoplastic, which guarantees that the flame does not spread or create toxic fumes.
