Product sheet

Brand: SIMON

Reference: SIMON 44403020-138

Complete in-table kit with cover, brush, 3 Schuko socket bases and a plate for two RJ45 connectors. Part of Simon's 400 series, it features an elegant black finish. Thanks to this complete in-table kit, we can embed our connections in any type of space. Simon offers an elegant and avant-garde way to have multiple elements without using long cables on the floor, as the kit is pre-wired. The Simon 400 series is already a benchmark in homes and the most demanding workspaces. This piece is made of metal and is suitable for voltages of 250 volts and intensities of 16 amperes. A highly durable product thanks to its painted steel enclosure and anodized aluminum profile. Simon offers fire safety across the entire range, achieved through the use of self-extinguishing, halogen-free thermoplastic, which ensures that flames do not spread and toxic fumes are not produced.
