Description

Schneider New Unica electrical mechanisms SCHNEIDER NU322654 Push button 2 modules anthracite SCHNEIDER NU322654 After many years in the market, the series more Schneider functional with the new look. The new range, New Unica, comes with innovative solutions, with a renewed design and high performance for the home. New Unica is Practical The innovative solutions that New Unica presents respond to all installation needs, both residential and tertiary. In addition, guaranteeing backward compatibility with Unica products already installed. New Unica is Innovative With Wiser, Schneider Electric's Smart Home solution, we can control our facilities like never before imagined. The control of your home will evolve as the connection needs in your home change. From a simple local control of lighting or blinds with our mobile phone to total control from anywhere, through useful simple programming to create environments according to your day to day. Without complicated or expensive installations, without works or hassles. Simply replacing the existing mechanisms. New Unica is Attractive New Unica presents new designs in shapes and materials that adapt to your decorative needs: Studio : simplicity in shapes and finishes. Studio Color : personalization of each of your environments. Studio Metal : presence and elegance. Pure : the essence of noble materials. Ease of installation New Unica mechanisms and sockets They have been designed with the needs of the installer in mind. Its modular design and its fixing systems allow installation on any support. Included on a channel, without frame or special frames, which provides great versatility.
