SIMON 270 | Surface box with 1 white element 20000751-090

Discover all the functions they have created for **Simon 270** : switches, sockets, USB, TV sockets, RJ, dimmers, shutter switches and special functions.

Electrical connections and mechanical fixings have been improved.

Practicality is not incompatible with aesthetics. In this collection, the different control mechanisms have the same usability and are of progressive pulsation. The entire surface of the key is useful and offers a very pleasant uniform touch with a short and precise actuation travel. In addition, its 100% pulsating mechanism makes the keys return to the same position, always remaining in perfect order and harmony.
