SIMON K45 | Double USB charger with 1 module 2.1A white

Brand: SIMON

Reference: SIMON K126E/9

2x2.1A 5V/DC charger via USB type A port white Simon K45. Measuring 45x45 mm, the K126E/9 charging base has two 5V/DC USB type A ports. The double module allows the simultaneous charging of 2 USB devices with a delivery intensity of 2.1A. But the best thing, without a doubt, is its manufacture with metallic components covered with self-extinguishing thermoplastic insulation and free of halogens, in a way that guarantees that the flames do not spread in the event of a fire, in addition to low toxicity if there is smoke emission. And it is that the Simon K45 collection offers solutions suitable even for the most demanding. All thanks to our commitment to innovation and the use of the highest quality materials. Don't worry about everything and trust Simon to fill your home with the safest and most effective products.
