**BERKER | Self-extending blank plate with 1 white element 102112**

Brand: HAGER

Reference: HAGER 102112

Base plate with 1 self-extinguishing element in pearl white color and matt surface. This surface mount frame and lettering product is intended for mounting on flammable substrates. Thus, together with this base plate, the brand offers a variety of products designed for the intelligent management of buildings, establishing as fundamental pillars the quality and functionality of its materials and the innovative but timeless design.

BERKER | Self-extending blank plate with 1 white element 102112 What to know when buying the Berker electrical mechanism The Berker range of electrical mechanisms is common to all series following: S.1, B.3, B.7, S.1, B.3, B.7, Q.1, Q.3, Q.7, K.1, K .5, Arsys, R.1, R.3, and R.8 The general structure of this complete mechanism is: Mechanism + frame + key or cover The modular system with the greatest number of aesthetics and types of materials. The breadth of shapes, colors and materials (glass, steel, aluminum, porcelain, concrete, ...) allows to combine the concepts of Quality, Functionality and Design. Suitable solutions for the decoration of any environment, in all its functionalities, both in conventional and electronic mechanisms and in building control and management. Berker electrical mechanisms < p> As the inventor of the modular system, Berker has a single mechanism for different aesthetics. The current mechanisms are left on the wall. Only aesthetic ones are substituted. Even if a control switch or an illuminated switch is desired, the mechanism is always the same. This means that: - There are no wrong mechanisms in the installation - Minimum stock - Long-term customer satisfaction Berker design and functionality Tried and tested modular design and Extremely flat angle of only 3.5º makes the switch look very flat on the wall. For ease of installation, the concept of Flexolift clamps was created. The claws snap flush and are automatically forced into position when released. On the back of the switch is a laser engraving of the circuit diagram, graphic symbol, and length of uninsulated conductor length required for connection. On the front, the reference of the mechanism stands out to be able to identify it very easily.

Specifications

Colour	White
EAN	4011334002642
Manufacturer	Hager
# Elements	1 elemento
Piece type	Electrical mechanisms
Series	Berker
