

Product sheet

BERKER | Support plate mechanism with input with 1 red element 454001

Brand: HAGER

Reference: HAGER 454001

Backing Plate with 1-Element Red Mounting Piece for Modular Jacks and Keystone Modules. This plate without expansion claws has insert dimensions of 15.5x19.5mm. Thus, the part indicated for the central plate with a sliding dust protection cover has a support ring. In addition, along with this plate, the brand offers a variety of mechanisms designed for the intelligent management of buildings, establishing the quality of its materials and its innovative but timeless design as fundamental pillars, all without sacrificing functionality.

Description

BERKER | Support plate mechanism with input with 1 red element 454001 What to know when buying the Berker electrical mechanism The Berker range of electrical mechanisms is common to all the following series: S.1, B.3, B.7, S.1, B.3, B.7, Q.1, Q.3, Q.7, K.1 , K.5, Arsys, R.1, R.3, and R.8 The general structure of this complete mechanism is: Mechanism + frame + key or cover The modular system with the greatest number of aesthetics and types of materials. The breadth of shapes, colors and materials (glass, steel, aluminum, porcelain, concrete, ...) allows to combine the concepts of Quality, Functionality and Design. Suitable solutions for the decoration of any environment, in all its functionalities, both in conventional and electronic mechanisms and in building control and management. Berker electrical mechanisms < p> As the inventor of the modular system, Berker has a single mechanism for different aesthetics. The current mechanisms are left on the wall. Only aesthetic ones are substituted. Even if a control switch or an illuminated switch is desired, the mechanism is always the same. This means that: - There are no wrong mechanisms in the installation - Minimum stock - Long-term customer satisfaction Berker design and functionality Tried and tested modular design and Extremely flat angle of only 3.5° makes the switch look very flat on the wall. For ease of installation, the concept of Flexolift clamps was created. The claws snap flush and are automatically forced into position when released. On the back of the switch is a laser engraving of the circuit diagram, graphic symbol, and length of uninsulated conductor length required for connection. On the front, the reference of the mechanism stands out to be able to identify it very easily.

Specifications

Colour	Red
EAN	4011334160236
Manufacturer	Hager
# Elements	1 elemento
Piece type	Electrical mechanisms
Series	Berker
