Description

The Televes wind mounting kit is ideal for ensuring the stability of antennas and masts in areas with strong winds. Includes a plate with windage clamp, 3 turnbuckles and 6 cable ties, as well as 25m of galvanized steel cable with a breaking stress greater than 200 kp (1960 n). With this kit, you can install your antenna with complete safety and peace of mind, avoiding possible damage due to adverse weather conditions.
