Key unipolar

Series of mechanisms **Simon 88**[View product online](#)**Description**

Key switch graphite SIMON 88010-38

This series of **simon** is characterized by a completely different design to what we are used to. Available in round or square, this series of **mechanisms** plays with the aesthetics of a key round mixed with a frame in two options, round and square.

If something is good, why change? The **mechanisms Simon 88** are the same as series 31, 75 and 82, so that if you already have one of these series and you have to give a radical change to your mechanisms, it will only be necessary to change the frames and keys.

Colors available in the covers of Simon 88

The covers of **Simon 88** can be found in three finishes matte:

- white
- brown
- graphite

The lids and keys are suitable for the two types of frames that are available in this series.

Specifications

Colour	Grafito
EAN	8421053042748
Manufacturer	Simon
Piece type	Covers and keys
Series	Simon 88
