Description

SOL series bipolar switch mechanism. Light for your first spaces. Bjc Sol manages to combine the best of the series of small electrical equipment in a series for the first home equipment. A surprising and original series. For its design, for its ease of installation, for its safety and for its exquisite finishes. Reliable and resistant, this is the Bjc Sol series, with high quality finishes. Adapted to the new trends in installation and prepared to equip the home with a complete range of functions. Individually, they attract by themselves. Together, they form a complete kit with all the necessary features that today's user can claim. Bjc Sol offers the possibility of installing the plates horizontally or vertically, from one to three elements and, if desired, two keys on each element. A great variety for a great team.
