Product sheet

Matv socket low pressure 4dB type-T

Brand: TELEVES

Reference: TELEVES 5230

The sockets and outlets incorporate a new flange model whose main advantage is to facilitate the visualization of the connection in locations where the socket is close to the ground. The live tightening design has been improved to meet cable operator specifications. With this improvement, the pressure system would meet the following specifications: For a minicable with a total diameter of 4.4 mm, the supported weight would be: greater than 4 Kg with live and mesh fastening, greater than 2 Kg with live fastening only . For a T100 type cable, the supported weight would be: greater than 12 Kg with live and mesh fastening, greater than 5 Kg with live fastening only. Shielding indication is introduced in the chassis.

Description

Since there is a wide range of mechanisms on the market, this **TV-FM antenna socket** fits in the vast majority of series without any additional effort.

4 dB low loss antenna socket

There are two types of TV-FM antenna sockets:

Reference 5230: **antenna socket** with single or final derivation

Reference 5231: **antenna socket** with intermediate derivation

The sockets and connection boxes incorporate a new flange model whose main advantage is to facilitate the visualization of the connection in locations where the socket is close to the ground.

The design of the tightening of the live has been improved to comply with the specifications of the operators of cable.

Easy and quick to install

Specifications

EAN	8424450052303
Manufacturer	TELEVES
Piece type	Electrical mechanisms
Series	Legrand Niloé Step
