FERMAX 2068 | Telephone call extender with buzzer

Brand: FERMAX

Reference: FERMAX 2068

Product description: The FERMAX 2068 telephone call extender with buzzer is a device designed to extend the call signal of conventional telephones in installations where there is a considerable distance between the door and the telephone. This extender includes a buzzer that alerts the user when a call is received at the door, providing greater comfort and security.

- **Compatible with conventional telephones:** Works with all types of analog telephones, adapting to most existing installations.
- **Integrated buzzer:** Includes a buzzer that alerts the user to an incoming call, even in noisy environments.
- **Easy installation:** Its compact design and ease of connection make it simple to install in any environment.
- **Wide coverage:** Allows extending the call signal up to 100 meters in distance, adapting to large-scale installations.
- **Robust and durable:** Manufactured with high-quality materials, it guarantees optimal performance and a long service life.
