FERMAX 9694 | Push button module CITYMAX 4+N 201

Brand: FERMAX

Reference: FERMAX 9694

The **CITYMAX 4+N 201 pushbutton module by FERMAX 9694** is a key component in video intercom and access control systems, designed to provide a secure and reliable connection between the street panel and the user's indoor unit, enabling two-way communication and door opening.

- **4+N system compatibility:** Designed to work in 4+N video intercom and access control systems, ensuring perfect integration in this type of installation.
- **Ruggedness and durability:** Manufactured with resistant and durable materials, capable of withstanding the most demanding environmental conditions and constant use.
- **Easy installation:** Its simplified design and connectivity allow for a simple and quick installation, reducing the time and effort required to get it up and running.
- **Backlit buttons:** The pushbutton module's buttons are illuminated, facilitating their use in low-light conditions or at night.
- **Bus-powered:** It is powered directly through the installation's bus, eliminating the need for additional power supplies.
