FERMAX 9671 | Color camera module

Brand: FERMAX

Reference: FERMAX 9671

Spare color camera module to incorporate in CityClassic and Citymax panels. Color video camera module with integrated lighting and pan&tilt adjustment system to adjust the camera lens. For video intercom installations with color monitors. CitylineClassic is the line of ''continuous profile'' street signs for buildings. The plates are made of anodized aluminum, highly resistant to weathering and climatic changes. The design of the plate stands out for its convex curved profile. A cellular rubber sealing gasket that is included ensures a perfect coupling of the plate to the wall, to prevent water leaks. The color video camera module can be incorporated into CityClassic panels with a viewfinder. With a design and characteristics very similar to the CityClassic panel to the CityClassic panel, this panel differs in practical aspects that affect composition and assembly.
