**FERMAX 9678 | CITYMAX 4+N
amplifier module**

Brand: FERMAX

Reference: FERMAX 9678

Spare parts amplifier module to incorporate in Citymax panels. It is the module (audio unit) that incorporates the electronic circuits necessary for the operation of the audio system in the intercom and video intercom installations, allowing communication with the dwellings, the concierge, the opening of the door, etc. It has volume adjustments, both in the residential street direction and residential street direction, so that the installer can adjust the optimum level. Citymax is the line of entrance panels with a "continuous profile" and a modular composition. With a design and characteristics very similar to the CityClassic panel to the CityClassic panel, this panel differs in practical aspects that affect composition and assembly.
