FERMAX 9695 | Amplifier Kit 4+N

Brand: FERMAX

Reference: FERMAX 9695

Amplifier module kit 4+N of spare parts to incorporate in CityClassic panels. It is the module (audio unit) that incorporates the electronic circuits necessary for the operation of the audio system in the intercom and video intercom installations, allowing communication with the dwellings, the concierge, the opening of the door, etc. It has volume adjustments, both in the residential street direction and residential-street direction, so that the installer can adjust the optimum level. Cityline Classic is the line of continuous profile entrance panels for buildings. The plates are made of anodized aluminum, highly resistant to weathering and climatic changes. The design of the plate stands out for its curved-convex profile. A cellular rubber sealing gasket that is included ensures a perfect coupling of the plate to the wall, to prevent water leaks. Equipped with special silver-plated contacts that provide them with greater durability.
