Description

Serrucho Maestral 300 is the ideal tool for any type of cutting and pruning in the garden. With its 30cm long straight blade and rubber handle for a firm grip, this saw offers comfort and efficiency with each use. The slight curve of the blade creates the perfect angle to apply the appropriate force during sawing, avoiding unnecessary efforts and uncomfortable positions. The steel blade treated with heat pulses guarantees resistance and durability, while the ergonomic polypropylene handle with non-slip synthetic rubber provides comfort during work. Weighing 170g and with a practical case included, this saw is the perfect choice for garden enthusiasts.
