RJ45 socket category 6A STP 2 modules white

Brand: LEGRAND

Reference: LEGRAND 076576

The White RJ45 Category 6A STP 2 Module Socket is a Cat. 6A database with metal shielding STP of 2 modules in white, which offers an efficient and reliable solution for the installation of data networks. These mechanisms have RJ-45 LCS² sockets with a quick-connect connector without tools, accepting AWG 22 to AWG 26 single-wire cables and AWG 26 multi-wire cables. In addition, the contacts are identified with double color codes and numbers 568 A and B, and comply with with ISO/IEC 11801 ed. 2.0 EN 50173-1 and EIA/TIA 568 C2.

Main technical characteristics:

- Cat. 6A database with 2-module STP metallic shielding in white.
- RJ-45 LCS² sockets with quick connection connector without tools.
- Accept AWG 22 to AWG 26 single-wire cables and AWG 26 multi-wire cables.
- Contacts identified with double color code and numbers 568 A and B.
- Compliance with ISO/IEC 11801 ed. 2.0 EN 50173-1 and EIA/TIA 568 C2.

Description

The White RJ45 Category 6A STP 2 Module Socket is a Cat. 6A database with metal shielding STP of 2 modules in white, which offers an efficient and reliable solution for the installation of data networks. The STP metallic shielding guarantees the protection of the signal from electromagnetic interference, which improves the performance and quality of the connection.

These mechanisms have RJ-45 LCS² sockets with quick-connect connector without tools, allowing easy and safe installation. These sockets accept AWG 22 to AWG 26 single-core cables and AWG 26 stranded cables, making them suitable for a variety of network applications. In addition, the contacts are identified with a double color code and numbers 568 A and B, which facilitates their installation and connection. Pin identification also ensures correct cable connection, avoiding connection errors that can affect network performance.

Another outstanding technical feature is compliance with ISO/IEC 11801 ed standards. 2.0 EN 50173-1 and EIA/TIA 568 C2, which guarantees its quality and long-term reliability.

In summary, the White RJ45 Category 6A STP 2 Module Socket is an efficient and reliable solution for the installation of data networks that require greater performance and protection. With its STP metallic shielding, RJ-45 LCS² sockets with tool-free quick-connect connector, acceptance of different cables, contact identification and compliance with international standards, these mechanisms become an ideal option for those looking for a quality solution and reliable for your network connection needs.

Specifications

High	46,5
Width	45
Colour	White
EAN	3245060765767
Manufacturer	Legrand
Weight (kg)	46,84
Piece type	Electrical mechanisms
Series	Legrand Mosaic
