Box for 20-32A sockets

Brand: LEGRAND

Reference: LEGRAND 080184

The Batibox embedding box is perfect for installing 20 and 32A sockets. With a depth of 40mm, this box is designed to house an 85x85mm element. It is compatible with 95x95mm and 100x100mm sockets, and its screw placement is vertical.

Main technical characteristics:

- Design for 20 and 32A sockets
- 40mm depth
- Holds an 85x85mm element
- Compatible with 95x95mm and 100x100mm base sizes
- Vertical screw placement

Description

The Batibox embedding box is an effective solution for installing 20 and 32A sockets in masonry. With a depth of 40mm, this box is designed to house an 85x85mm element and adapts perfectly to bases with dimensions 95x95mm (ref. 0 554 55/57) and 100x100mm (ref. 0 558 12/17).

One of the most notable features of this embedding box is its vertical screw placement, which greatly facilitates the installation and adjustment of the bases. In addition, its compact and functional design allows easy integration into any type of electrical installation.

Made with high-quality and resistant materials, the Batibox embedding box offers great durability and reliability over time, ensuring a safe and stable electrical installation. Its masonry-embedded design makes it an ideal option for the construction of walls and ceilings.

Additional technical characteristics:

- Compact and functional design

- Embedded in masonry
- High quality and resistant materials
- Easy integration into any type of electrical installation
- Ensures a safe and stable electrical installation
