Differential switch DX3 2/63/30AC

Brand: LEGRAND

Reference: LEGRAND 411506

The DX3 2/63/30AC differential is a 230V~ bipolar differential switch with 30mA sensitivity and a nominal current of 63A. It complies with the UNE EN 61008-1 standard and has top input and bottom output connections via screw terminals. In addition, it has the following types of fault detection:

- Type AC: detects alternating component defects.
- Type A: detects alternating and continuous component defects (specialized circuits).
- Type Hpi: detects faults in AC and DC components (type A) with increased immunity to untimely trips (environments with disturbances).
- Type B: detects faults in alternating and direct components and faults in direct current without ripple.
- Number of modules: 2.
- Suitable for auxiliaries, motorized controls and DX³ connection modules (except Type B).
- Screw/screw connection: upper entry and lower exit through screw terminals.

Specifications

High	77,8
Width	35,6
Sensitivity	30 mA
Curve	C
EAN	3245064115063
Manufacturer	Legrand
Intensity	63
# Elements	2
No. of poles	2P

Weight (kg)	0
Protection	IP20
Nominal voltage (V)	230V
