[View product online](#)**Description**

Waterproof putty tube for threaded joints in plumbing and sanitation with tow. 200 grams Tot-Rosc de Collak 770200.

Format:

The putty comes in a 200g tube format.

Gray colour.

Description:

Anticorrosive and watertight putty for sealing threaded joints.

It does not change or harden, retaining all its properties for an indefinite period of time, always remaining elastic.

Applications:

Suitable for use with hemp tow in construction, industry and plumbing. Problems always arise with the waterproofing of threaded joints or with their disassembly, since with the Over time, they oxidize and seize.

Suitable for hot and cold water pipes.

The main purpose of the product is the conservation of threaded joints. It is used in unions and threaded pipe accessories.

TOT-ROSC putty guarantees a hermetic and permanent seal, therefore, it preserves the unions and threaded parts from oxidation and seizing, allowing their disassembly even after many years have elapsed. .

Storage:

In a cool, dry place and at a temperature between 5 and 30 °C, the product can be stored indefinitely.
