Description

Superpro 30976 Rubi 230mm STT diamond blade, ideal for dry cutting and with a grinder any type of construction material such as brick, terrazzo, concrete, etc. This all-terrain disc is capable of making cuts even in reinforced concrete (maximum recommended rod of 6mm). Its perforated core reduces stress during cutting and facilitates greater cutting speed, allowing difficult materials to be cut quickly and safely. With an outer diameter of 230mm, this diamond blade is an essential tool for professionals looking for efficiency and precision in their construction and renovation work.
