Description

Drygres 4drill ø6mm drill bits. hex 5923 rubi is a recommended tool for drilling all types of ceramic tiles, especially porcelain stoneware, marble and granite. It uses vacuum brazed technology, which increases resistance to temperature and friction, ensuring the fixation of the diamond particles in the cutting area. These bits are ideal for use with corded or cordless electric drills, always without a hammer. Its hexagonal connection allows quick adaptation to drills with a 10mm head.

- Drygres 4drill ø6mm drill bits.
- Recommended for all types of ceramic tiles, marble and granite.
- Recommended for all types of ceramic tiles, marble and granite.
- Vacuum welding technology, vacuum brazed.
- Increases resistance to temperature and friction.
- For use with electric drills with or without cord, without hammer .
