Drygres 4Drill 10mm Hex 5926 RUBI Drill Bits

Brand: RUBI

Reference: EDM 79525

Drygres 4drill ø10mm drill bits. hex 5926 Rubi

- Recommended for drilling ceramic tiles, porcelain stoneware, marble and granite.
- Vacuum brazing technology for greater temperature resistance and friction.
- For hammerless electric drills with a 10mm head.
- Drilling depth of 36mm.
- They contain wax to facilitate cooling and evacuation of remains. drilling.
- Orbital movement during drilling and cleaning of debris between uses.

Description

The Drygres 4Drill 10mm Hex 5926 Rubi drill bits are ideal for drilling all types of ceramic tiles, especially porcelain stoneware, marble and granite. Thanks to their vacuum welding technology, they offer greater resistance to temperature and friction, ensuring a long useful life. Its hexagonal connection allows quick adaptation to drills with a 10mm head, and its drilling depth is 36mm. These drill bits contain wax inside to facilitate cooling and evacuation of drilling debris, which guarantees efficient and precise work. It is recommended to perform a slight and constant orbital movement during drilling for proper cooling. With Rubi's Drygres 4Drill Drill Bits, you can make clean and precise drilling in your ceramic coating installation projects.

- Drygres 4drill ø10mm drill bits.
- Vacuum welding technology for greater resistance.
- Hexagonal connection to adapt to 10mm drills.
- Drilling depth of 36mm.
- They contain wax to facilitate cooling and evacuation of remains. .
- Recommended for ceramic tiles, marble and granite.

Specifications

EAN	8413797059267
Manufacturer	RUBI
Country of origin	Spain
Weight (kg)	0, 03
