RUBIlevel Magnet 80cm RUBI

Brand: RUBI

Reference: EDM 79649

**Rubilevel Magnet 80cm Rubi**

- Rectangular section aluminum profile
- Longitudinal ribs for greater resistance
- Precision constant 0.5mm/m
- Rare earth magnets for greater grip
- Three acrylic vials sealed with epoxy resin
- High resistance to impacts and UV rays
- Verifications of horizontal, vertical levels and 45° slopes

[View product online](#)**Description**

Rubilevel Magnet 80cm Rubi is a high quality magnetic level made of rectangular section aluminum profile, which guarantees a constant precision of 0.5mm/m. With rare earth magnets inserted, it offers much higher holding power than traditional ferrite magnets. Its three acrylic vials sealed with epoxy resin provide high resistance to impacts and UV rays, allowing verification of horizontal, vertical levels and on 45° slopes. Ideal for professional installers who need to verify levels in metal structures without holding the level, this product combines lightness and resistance thanks to its longitudinal ribs that reinforce its structure.

- Made of rectangular section aluminum profile
- Constant precision of 0.5mm/m
- Rare earth magnets for greater holding power
- Three acrylic vials sealed with epoxy resin
- High resistance to impacts and UV rays
- Allows verification of horizontal, vertical levels and on 45° slopes

Specifications

EAN	8413797769319
-----	---------------

Manufacturer	RUBI
Country of origin	Spain
Weight (kg)	0, 497
