### Description

The R80903 Rubi hearing protector is an earmuff-type device designed to provide comfortable and effective protection in environments with high noise pollution. It is made up of two caps that adapt to the ear using pads and sponge padding to attenuate noise. The caps are held by a rigid plastic harness that guarantees correct support and constant pressure. This hearing protector is manufactured in accordance with the EN 352-1 standard and is recommended for all jobs in which 80dB (A) or peaks of up to 135dB are exceeded.
