

## Product sheet

## Roll 100M Hose (2x1.5mm) Black

Brand: RCT

Reference: GSC 101005001

The **Roll 100M Hose (2x1.5mm<sup>2</sup>) Black** is an essential cable that meets the reaction to fire requirements for general applications in construction sites. With a length of 100 meters, this hose type cable is designed to offer safety and performance in electrical installations. Its 0.5KV insulation and copper conductor material guarantee reliable power transmission.

### Main Technical Characteristics:

- **Type:** Hose
- **Section:** 2x1.5mm<sup>2</sup>
- **Insulation:** 0.5KV
- **Colour:** Black
- **Conductor material:** Copper
- **CPR Classification:** Reaction to fire ECA
- **Length:** 100M

### Description

The **100M Hose Roll (2x1.5mm<sup>2</sup>) Black** is an essential component in electrical installations, designed to meet the reaction to fire requirements necessary in general applications in construction sites. With a focus on safety and performance, this hose type cable provides a reliable and durable solution for power transmission in various environments.

The **VV-F cable** with a **2x1.5mm<sup>2</sup> section** offers a balance between power and efficiency, suitable for a variety of electrical needs. Its **0.5KV insulation** ensures an adequate level of insulation and protection in different situations. The **copper conductor material** ensures efficient and reliable power transmission, contributing to stable and safe operation.

The **black color** of the cable it is not only functional, but also integrates unobtrusively into various

applications and environments. In addition, the **CPR Classification** of reaction to fire ECA confirms its suitability for applications where safety is a priority.

The main technical characteristics of the **Roll 100M Hose (2x1. 5mm²) Black** are:

- **Type:** Hose, making it suitable for various electrical uses.
- **Length:** 100 meters, offering flexibility in installation.
- **Meets reaction to fire requirements:** Ideal for applications in construction sites and other environments where safety is essential.

This cable is especially useful in:

- Electrical installations in **construction works**, where safety requirements are rigorous.
- General applications that require **safe and reliable power transmission**.

Specifications

|                           |               |
|---------------------------|---------------|
| Colour                    | Black         |
| EAN                       | 8433373065284 |
| Manufacturer              | GSC           |
| Cable cross-section (mm²) | 2x1.5         |
