[View product online](#)**Description**

The GSC Simola model LED ceiling light is an excellent option to illuminate any interior space. Its minimalist design adapts perfectly to any style of decoration, providing a clean and modern aesthetic. With a high luminosity of 3306 lumens with a diffuser, this ceiling light provides powerful and efficient lighting, ideal for homes, hotels and businesses.

With a consumption of 46W, this LED ceiling light is very economical compared to other traditional lighting systems, which makes it an excellent option to save on the electricity bill. The light emitted is 4000K, which simulates natural daylight, which makes it perfect for any interior space.

As for the measurements, the GSC Simola model LED ceiling light has measurements of 610x85mm, which makes it ideal to be mounted on any ceiling. This ceiling light is easy to install and comes with everything you need for mounting. In summary, the GSC Simola model LED ceiling light is an excellent option to illuminate any interior space with a minimalist design, high luminosity and low consumption.
