Description

The GSC pedestal fan with remote control is a powerful and versatile cooling device designed to be used in any space. With a 90-degree oscillating head, a multi-orientation oscillating head, and an adjustable tilt angle, this fan allows for effective and customized air distribution.

In addition, it has a protection grill that prevents the hands or fingers come into contact with the blades while operating, ensuring user safety. The height is also adjustable, allowing you to adjust the direction and intensity of the airflow.

The GSC standing fan comes with a remote control that allows the user to control all the functions of the fan from any room place. In addition, it has a timer that can be programmed up to 7.5 hours, which makes it ideal to use while sleeping.

This fan works with a voltage of 220-240V and the remote requires 2 AAA batteries (not included). With a smooth white finish, it blends seamlessly into any décor and is an efficient and convenient solution to

beat the heat and enhance comfort anytime, anywhere.
