Description

The mini USB desktop fan is a small and portable device designed to provide a cool and comfortable breeze anywhere. With a 1.2 meter USB connection, it can be connected to any device with a USB input, including computers, laptops, power banks, and more.

This fan has 4 aluminum blades that rotate at a speed of 2000 revolutions per minute, providing a powerful and effective airflow. With a power of 3W, it is efficient in energy consumption and does not require any type of additional electrical cable.

The angle of inclination can be regulated according to the user's needs, allowing the direction of the flow of light to be adjusted. air for greater comfort. In addition, it has a protection grid that prevents hands or fingers from coming into contact with the blades while it works, guaranteeing the user's safety.

The sound level of the mini-fan is 40 decibels, making it quiet and suitable for use in offices, bedrooms, and any other space where a quiet, cool breeze is required. In short, this mini-fan is a practical and convenient solution to beat the heat and improve comfort anytime, anywhere.
