Description

The GSC desk fan is a practical and efficient option to keep the air fresh in any space. With a power of 45W, this fan is capable of generating a refreshing breeze that helps reduce the sensation of heat.

As for its design, the GSC fan has a white finish that adapts to any type of decoration and style. In addition, it has a protection grid that protects users from any accident or damage that may occur during use.

The fan has three different speeds that can be adjusted according to the needs of each person. From a soft breeze for greater comfort to a stronger breeze for a greater sensation of freshness, the GSC fan is versatile and adaptable to any need.

This fan also has a feature that makes it even more practical: an oscillating spread of 90 degrees. This means that the fan can be moved left and right to distribute the air evenly in the room. In addition, it also has a 10-degree tilt angle, which allows air to be directed up or down as needed.

The sound level of the GSC fan is 53 decibels, making it a silent option and will not interfere with rest or daily activities. It also has two positions: fixed and rotary. In the fixed position, the fan stays in one place while in the rotating position, it can rotate around its axis.

The fan's cable is 1.6 meters long, which allows it to be placed anywhere anywhere without having to worry about the distance to the power outlet. In summary, the GSC desktop fan is a practical, efficient and versatile option to keep the air fresh in any space.
