Philips PH1x100mm insulated screwdriver

Brand: GSC

Reference: GSC 502035001

PH1x80mm

The **Insulating Screwdriver** 502035001 gives you the control and security you need in your electrical projects. With its reinforced and magnetized tip, chrome vanadium manufacturing and ergonomic design, it is the essential tool for your precision tasks.

Main Technical Characteristics:

- **Reference:** 502035001
- **Dimension:** 80mm in length for reach and versatility.
- **Material:** Made of chrome vanadium for strength and durability.
- **Reinforced and Magnetized Tip:** The reinforced tip provides a solid grip, while the magnetic property makes it easy to manipulate metal components .

Discover how this insulated screwdriver takes your electrical projects to the next level with its exceptional performance and design.

Description

In the world of electrical tasks, precision and safety are paramount. To ensure reliable and efficient results, we present the **502035001 Chrome Vanadium Insulating Screwdriver**, a tool designed to offer the control and confidence you need in every application.

Features Additional Techniques:

•

Distinctive Reference Number: Identified by reference 502035001, this insulated screwdriver is a symbol of superior quality and performance. Don't compromise excellence in your electrical projects, rely on a tool that meets the highest standards.

•

Versatile Dimensions: With a length of 80mm , this screwdriver provides a perfect balance between reach and maneuverability. From detailed tasks in tight spaces to larger jobs, this screwdriver is designed to accommodate a variety of needs.

•

High-Quality Materials: Manufactured Featuring chrome vanadium, this screwdriver is an investment in durability and performance. The robustness of its construction ensures that it can withstand the rigorous demands of electrical applications and maintain its integrity over time.

•

Reinforced Tip for Greater Grip: The tip of the screwdriver is essential for safe and precise handling. The reinforced tip of this model offers a firm grip on screws, minimizing the risk of slippage and allowing you to work with confidence in electrical environments.

•

Magnetic Property: The magnetism built into the tip of the screwdriver makes it easy to manipulate metal components. This feature improves screw placement and removal efficiency, speeding up your tasks and reducing the risk of part loss.

•

Ergonomic Design for Comfort: The ergonomic handle of this screwdriver ensures that you can work comfortably for long periods. Reduced hand fatigue allows you to focus on the precision and quality of your work.

Specifications

EAN	8433373067691
Manufacturer	GSC
Weight (kg)	0,062
