Description

When it comes to electrical and assembly work that requires pinpoint precision, reliable tools are essential. Introducing the **Chrome Vanadium Flat Insulated Screwdriver 502035006**, a tool that combines advanced technical features with ergonomic design to offer you exceptional performance in every application.

Additional Technical Features :

-

Quality Reference: Identified with the reference 502035006, this flat insulated screwdriver is a symbol of excellence in performance. Trust a tool that meets the highest standards to tackle electrical tasks with precision and professionalism.

•

Extended Reach Dimension: At 125mm in length , this screwdriver gives you extended reach for jobs that require access to difficult areas. Its balanced design allows you to perform detailed and extensive tasks with comfort.

•

Premium Quality Material: Made of chrome vanadium, this screwdriver is built to last constant use and the stresses of electrical work. Its robust construction ensures that it maintains its performance and durability over time.

•

Reinforced Tip for a Firm Grip: The tip of the screwdriver is essential for precise and safe work. The reinforced tip of this model guarantees a solid grip on the screws, minimizing the risk of slipping and ensuring total control in each movement.

•

Advanced Magnet Property: The magnetic property of the tip speeds up the handling of metallic components, which speeds the placement and removal of screws. This feature improves the efficiency of your tasks and reduces the possibility of losing parts.

•

Ergonomic Handle for Comfort: The ergonomic handle of the screwdriver guarantees a Exceptional comfort during long work sessions. Reduced hand fatigue allows you to maintain a high level of precision and focus.

Specifications

EAN	8433373067738
Manufacturer	GSC
Weight (kg)	0,097
