Description

The **Fixed Wrench** with dimensions of 10mm and 12mm is an essential tool to carry out adjustment and tightening tasks with precision and efficiency. Manufactured from **chrome vanadium**, this wrench combines durability and strength to handle a variety of applications, from home work to industrial projects.

The versatility of this wrench lies in its design **double-ended**, offering two different sizes in one tool. With a dimension of 10mm on one end and 12mm on the other, this open end wrench allows you to tackle a variety of nut and bolt sizes without the need to constantly change tools. This feature saves time and improves work efficiency.

The main technical characteristics of the **Fixed Wrench** include:

- **Dimensions 10mm and 12mm:** Two sizes in one wrench, providing flexibility in a variety of applications.
- **Chrome vanadium material:** Provides strength and durability for withstand constant use and challenging conditions.

In addition to these technical features, the **Fixed Wrench** offers additional benefits:

- **Work Efficiency:** Double-ended design allows you to change between nut and bolt sizes quickly and without interruption.
- **Durable Construction:** The material of chrome vanadium ensures that the wrench maintains its performance in various conditions.

The **Fixed Wrench** is especially useful in situations such as:

- Home maintenance tasks and **minor repairs** that require precise adjustments.
- **Construction projects** and **mechanical work** that involves the use of nuts and bolts.

Specifications

EAN	8433373068230
Manufacturer	GSC
Weight (kg)	0,059
