Description

The **Adjustable Wrench** is an essential tool in any toolbox, designed for adjusting and tightening in a variety of tasks. With a length of 160mm, this wrench is a versatile companion that provides comfort and precision on jobs that require fine adjustments.

Made of **polished carbon steel**, this wrench not only offers durability, but also a smooth surface that makes it easy to handle. The most notable feature of this tool is its **graduated scale**, which allows adjustments to be made with precision and repeatability. This graduated scale is especially useful in situations where exact measurements are crucial.

The main technical features of the **Adjustable Wrench** include:

- **160mm dimension:** The right length to tackle a variety of tasks, from detail work to fitting in larger spaces.
- **Polished carbon steel material:** Provides durability and strength, ensuring the wrench stands up to constant use.
- **Graduated Scale:** The graduated scale adds a level of precision and control in adjustments, making it easier to obtaining consistent results.

In addition to these technical characteristics, the **Adjustable Wrench** offers additional advantages for users:

- **Versatility:** Suitable for a variety of tasks that require precise tightening and adjustment.
- **Comfortable Handling:** Ergonomic handle and polished material make it easy to grip and handling during use.

The **Adjustable Wrench** is especially useful in situations such as:

- Jobs >**home maintenance** and **minor repairs**.
- DIY and construction **projects** that require fine adjustments.
