Roll 100M Hose (2x0.5mm) White

Brand: RCT

Reference: GSC 003902922

The 100 meter **White Hose**, with a 2x0.5mm section, is designed to meet the reaction to fire requirements in general applications in construction works. Made with **copper conductive material** and with 0.5KV insulation, this hose is a safe and efficient option for electrical distribution.

- **Section:** 2x0.5mm, ideal for low voltage installations.
- **Conductor Material:** Copper, for optimal conductivity.
- **Insulation:** 0.5KV.
- **Length:** 100 meters, suitable for extensive projects.
- **CPR Classification:** Reaction to ECA fire.

Description

This **White Hose** with a section of 2x0.5mm and a length of 100 meters is ideal for a wide range of electrical applications in construction sites. Its design and characteristics guarantee safety and efficiency in electrical distribution.

- **Copper Conductive Material:** Ensures efficient energy transmission.
- **Fire Resistance:** ECA Classification, meets safety requirements in construction sites.
- **Flexibility and Durability:** Designed to resist wear and tear in environments of construction.
- **Quality Insulation:** With 0.5KV insulation, it protects against surges and short circuits.
- **White Color:** Offers a clean aesthetic and facilitates identification in complex installations.
- **Versatile Applications:** Suitable for general electrical installations in constructions.

Specifications

Insulation voltage	0.5Kv
Colour	White
EAN	8429642007147
Manufacturer	GSC
Material	Copper
Weight (kg)	3,36
Cable cross-section (mm²)	2x0.50
