Description

If you are looking for an efficient and safe way to expand your plug options, our Standard Series 2-socket power strip in elegant white is the perfect solution. With the increasing number of electronic

devices in our homes and workplaces, it is essential to have enough power outlets without sacrificing security. Our power strip combines elegant design with high-performance technical features to meet your everyday needs. With an impressive maximum power of 3680W, this power strip allows you to connect multiple devices to the same time without worrying about overcharging. Its 2 outlets give you the flexibility to connect your essential electronic equipment, such as laptops, phone chargers, lamps and more. The white color of the casing not only blends easily into any environment, but also adds a touch of style to your space. The 1.5 meter long power cord provides excellent versatility by allowing you to place the power strip in the most convenient location. Manufactured with H05VV-F type cable and with a cable section of 3x1.5mm, it guarantees a stable and safe power transmission for all your connected devices. With an intensity of 16A and compatible with lateral 2P+TT plugs, this power strip complies with safety standards and is suitable for a variety of applications. Safety is a priority, which is why we have included a child protection in the design of the multi-base. This provides an extra layer of security by preventing the accidental insertion of objects into electrical outlets, keeping your loved ones safe at all times. With a nominal voltage of 250V and a frequency of 50Hz, this power strip is adapted to conventional electrical networks. In short, our power strip 2 sockets from the White Standard Series combine functionality and style in a single device.

Specifications

EAN	8433373071506
Manufacturer	GSC
Weight (kg)	0,269
