Product sheet

Multiple socket French system 3 sockets + switch 3x1mm 1 meter white

Brand: GSC

Reference: GSC 100025001

Multiple socket with 3 sockets with French plug system, switch and 1 meter long cable. It supports a maximum power of 3680W and has child protection.

Main technical characteristics:

- Plug type: French, compatible with most plugs and electrical devices.
- Number of sockets: 3, with the capacity to connect several devices at the same time.
- Maximum supported power: 3680W, which allows you to use high-power devices without worrying about overloading the base .
- Cable: H05VV-F 3x1.5mm, a resistant and durable cable that offers great electrical conductivity.
- Color: white, a neutral color that adapts to any style of decoration.
- Cable length: 1 meter, a suitable length to place the base anywhere in the room.
- Side TT: yes, with a side ground connection that offers greater electrical safety.
- Switch: yes, to easily turn the multi-base on and off.
- Child protection: yes, to prevent electrical accidents in the home.
- Amps: 16A, an electrical current suitable for most devices.
- Voltage: 250V, compatible with most voltages in Europe.

Description

Multiple base with 3 sockets with French plug system, switch and 1 meter long cable, designed to connect various electrical devices safely and efficiently. This socket is ideal for homes, offices and any place that needs an efficient and safe power supply solution.

Main technical characteristics:

- Plug type: French, compatible with most plugs and electrical devices.
- Number of sockets: 3, with the capacity to connect several devices at the same time.
- Maximum supported power: 3680W, which allows the use of devices high power without worrying about overloading the base.
- Cable: H05VV-F 3x1.5mm, a strong and durable cable that offers great electrical conductivity.
- Colour: white, a neutral color that adapts to any style of decoration.
- Cable length: 1 meter, a suitable length to place the base anywhere in the room.
- Side TT: yes , with a side ground connection that offers greater electrical safety.
- Switch: yes, to turn the multi-base on and off with f acility.
- Protection for children: yes, to avoid electrical accidents in the home.
- Amps: 16A, an adequate electrical current for most devices.
- Voltage: 250V, compatible with most voltages in Europe.

With its practical and functional design, this power strip is the ideal solution for connecting various electrical devices safely and efficiently in any home or office. In addition, its switch and its protection for children make it a safe and easy-to-use option for any user.

Specifications

Colour	White
EAN	8433373024878
Manufacturer	GSC
Weight (kg)	0,223
Maximum power (W)	3680W
Cable cross-section (mm^2)	1
