## Description

This ceramic lamp holder is an excellent option for those looking for a strong and durable support for their light bulbs. With an M10 thread and a reinforced E14 socket, it is capable of withstanding a capacity of up to 2 amps.

The white ceramic used in the manufacture of this lamp holder is of high quality and provides excellent resistance to heat and corrosion, which guarantees a long lifespan.

The dimensions of the lamp holder are Ø28x53mm, which makes it compatible with a wide range of light bulbs and lighting accessories. In addition, its simple and elegant design makes it suitable for any style of decoration.

In summary, if you are looking for a resistant and durable ceramic lamp holder for your light bulbs, this is an excellent option to consider.

Main technical characteristics:

- Colour: white
- Thread: M10

- Type of cap: E14 reinforced
- Maximum amp capacity: 2A
- Dimensions: Ø28x53mm
